

Win

Fount Silver

SHEETFED FOUNT FOR SILVER IMAGE PLATES

PRODUCT DESCRIPTION

Win Fount Silver has been specially formulated to enable the production of fast clean copies from silver image plates. Win Fount Silver provides the perfect ink/water balance on both conventional and integrated dampening systems and is completely compatible with rubber and oil based inks.

DIRECTIONS FOR USE

Remove previous fountain solution and clean system before use. Check condition of dampening system; desensitize steels, clean or replace worn dampening covers, remove glaze from rubber rollers.

The recommended standard dosage is 5% vol/vol (max 10%) resulting in a pH value of 5.9 - 6.3. In alcohol dampening systems usually an addition of 10-12% isopropyl alcohol will be required.

MAJOR POINTS

- Performs perfectly on all dampening systems
- Compatible with both rubber - and oil based inks.
- Low water: immediate high density clean prints
- Low down time: optimal ink transfer and clean backgrounds mean less blanket washing.

PACKAGING

5, 20, 200 and 1000 litre cans/drums/containers
