

# Win

# Wash UV2

## AUTOMATIC UV WASH

### PRODUCT DESCRIPTION

Win Wash UV2 is a blend of solvents, which give zero swell on EPDM, nitrile, nitrile/PVC and butyl rubbers suitable for the removal of UV curing inks from rollers and blankets. Win Wash UV2 may be used by hand or in automatic roller or blanket washing systems as it has a medium evaporation rate.

### DIRECTIONS FOR USE

#### For rollers:

Apply with a wash up bottle to rollers and run-in. Apply scraper blade to remove ink and solvent. For colour changes it is recommended that two applications are made.

#### For rollers:

Apply with a rag or lint-free wipe, allow a few seconds for solvent to penetrate ink film and then wipe down. Finally wash blanket with clean water.

#### In automatic systems:

Follow system manufacturers directions.

Do not allow Win Wash UV2 to come into contact with the image areas of unbaked positive plates.

### MAJOR POINTS

- Mild solvent safe on all types of rollers
- Medium evaporating
- Suitable for hand or automatic use.

### PACKAGING

5, 20, 200 and 1000 litre cans/drums/containers.
